Hi,

We are also looking forward to meeting with you later today. In preparation for the meeting, we have prepared a memo with information related to your questions. During the meeting, we can review the contents of the memo and answer any additional questions you may have about the information

Thanks,

Brad Burnham

External Email

Good morning, I wanted to share some of the questions that EPA is interested in discussing during our call later this afternoon :

- The scope of nitrate contamination – estimated numbers of residences supplied drinking water by wells exceeding the drinking water standard
- Department of Health's approach and coordination when USDWs or private wells exceed drinking water standards
- Past and future efforts to supply alternate water to residences whose drinking water exceeds the drinking water standard
- State and local roles in regulating Group A public water systems, Group B public water systems, and private wells
- Department of Health's role and progress in implementing the GWMA's recommended actions

We appreciate everyone taking the time to meet and are looking forward to the call.

Thank you,

Brian Levo
